About Me

Mobile developer with expertise in building production-ready Flutter applications, GenAI powered solutions, and real-time systems for enterprise clients.

Skills & abilities

- **Core Mobile:** Flutter (Dart), Native Platform Channels, State Management, In-App Purchases.
- **IoT & Hardware Integration:** ESP32, BLE, Wi-Fi Provisioning, Serial Communication.
- **GenAI & Backend:** Live APIs, Prompt Engineering, Node.js, Express.js, WebSockets, REST APIs, MQTT (EMQX), UDP/TCP Networking.
- **Cloud & Databases:** Firebase, Supabase, MongoDB, MySQL.
- **Frontend Web:** Next.js, React.js, Tailwind CSS, TypeScript.

Experience

- **Solutions Engineer / App Developer - Craftech360 | Dec 2024 – Feb 2026**
 - **Lead Engineer for CheekoAI – Screen free smart companion for kids (EdTech):**
 - Developed **CheekoAI parent app** from the ground up, implementing secure **Wi-Fi Provisioning** for ESP32 hardware and managing real-time device communication via **MQTT**.
 - Engineered critical device interactions, including **OTA Firmware Updates**, volume control, and media playback.
 - Developed a high-performance **Java backend** and a custom **MQTT Gateway** to orchestrate audio packet transfer and device signaling between ESP32 hardware and the AI cloud.
 - Designed a sub-200ms latency voice interaction system by bridging **Generative AI Models** with a custom **UDP-based audio streaming gateway**, enabling natural, interruptible conversations.
 - Managed a distributed multi-cloud deployment strategy, configuring **Redis** for caching and **High-Performance MQTT Brokers** (EMQX) to handle massive IoT concurrency.
 - Designed the system prompts and persona definitions for the agent, strictly defining the toy's educational tone, safety guardrails, and interactive logic.
 - **Enterprise Solutions Delivery:**
 - Delivered 15+ production-grade event applications for major enterprise clients (Air India, Dell, PhonePe) under strict deadlines, maintaining high stability and performance during peak usage.
- **Flutter Developer – Overninja Technologies LLP | June 2024 – Sept 2024 (Part time)**
- **Flutter Developer Intern – Softzane Solutions | May 2023 – Jan 2024**

Awards

3rd Prize – ElevenLabs Worldwide Hackathon 2025

Education

University of Kerala | 2020 - 2023
Bachelor of Computer Applications
